

●●● For fine wrinkles ... TEOSYAL® First Lines

TEOSYAL® First Lines is recommended to correct fine lines and superficial wrinkles: sensitive areas such as crows' feet and the peribuccal area.

TEOSYAL® First Lines: a top-up treatment, requiring a smaller injection, is recommended after 6 months.

●●● Filling simplified with TEOSYAL® Global Action

TEOSYAL® Global Action is recommended to fill line wrinkles, damaged skin, mild or moderate nasogenian folds, peribuccal and glabella wrinkles. It is recommended for all areas of the face where the wrinkles are not too pronounced.

TEOSYAL® Global Action: a top-up treatment, requiring a smaller injection, is recommended after 6-9 months.

●●● TEOSYAL® Kiss: added-volume implant

Lips can be difficult to treat because of their mobility and dense blood vessel network, so they require a specially developed product. TEOSYAL® Kiss is an exclusive, innovative gel formula to treat the sensitive area around the lips.

TEOSYAL® Kiss is highly cross-linked in order to obtain a product which is more resistant to being broken down, guaranteeing optimal lifespan. A top-up treatment, requiring a smaller injection, is recommended after 6 - 9 months.

In-depth recovery using TEOSYAL® Deep Lines

TEOSYAL® Deep Lines is a highly viscous product recommended for filling deep facial wrinkles, such as nasolabial folds, vertical lip lines, and so on. Depending on the depth of the wrinkles to be treated, one or sometimes two treatment sessions are required for optimum results.

TEOSYAL® Deep Lines: a top-up treatment, requiring a smaller injection, is recommended after 6-9 months

TEOSYAL® Touch Up

TEOSYAL® Touch Up differs from TEOSYAL® Global Action only in its packaging. It is used for top-ups and as a complement to other TEOSYAL® products.

TEOSYAL® MESO: Optimise skin hydration

TEOSYAL® Meso is a non-cross-linked hyaluronic acid with a specially designed formula to optimise skin hydration. For better absorption by the tissue, the molecular weight of the hyaluronic acid injected is 1 million daltons - the same as that of the endogenous hyaluronic acid in the skin.

TEOSYAL® Meso's visco-elastic and absorbent properties improve skin tone and rehydrate the dermis. It is particularly recommended during skin revitalisation sessions, for fine dehydrated skin and to prevent skin ageing.

For optimal results, two to three sessions are recommended with a three-week interval between sessions, then follow-up sessions every two to three months depending on the condition of the skin

Gentle remodelling using TEOSYAL® Ultra Deep

TEOSYAL® Ultra Deep is a product which is specially designed for treating volumes and is injected using fine 25G1 needles; the injection is not traumatic for the patient and does not require an incision.

Highly cross-linked, TEOSYAL® Ultra Deep optimises your results long-term: a top-up treatment, requiring a smaller injection, is recommended after 9 - 12 months.

With TEOSYAL® Ultra Deep you can create or restore facial volumes, resculpt facial contours, treat deep wrinkles in thick skin, remove skin folds, correct minor ptosis and restore original facial curves.

TEOSYAL® Ultimate : INTENSE VOLUME

TEOSYAL Ultimate is the latest generation filling implant in the TEOSYAL range and the **ideal solution** for sagging skin and the loss of fatty facial support.

Specially designed for **remodelling faces** requiring large volumes of product, TEOSYAL Ultimate enables significant improvement of facial harmony by increasing subcutaneous tissue, creating volume (in the upper cheeks, cheeks and chin) and ensuring the **immediate correction of deep skin depressions**.

Before / After Gallery

Before

After

•When treated with **TEOSYAL Ultra Deep** and **TEOSYAL Global Action**, the lower part of the face is naturally remodelled, with wrinkles filled in and volume restored.

Before

After

•The face recovers its natural, healthy look, furrows are greatly reduced and shadows and hollows around the cheekbones disappear with the use of **TEOSYAL Deep Lines** and **TEOSYAL Ultra Deep**.

Before

After

•**TEOSYAL Kiss** reshapes and plumps lips and smoothes away lines

Before

After

• Combined use of **TEOSYAL Ultra Deep** and **TEOSYAL Global Action** corrects deep furrows and restores facial volume.

Before

After

• When treated with **TEOSYAL Ultra Deep**, facial hollows are filled out, and the proper shape of the upper cheeks and face stand out once again

Before

After

• Deep furrows are treated with **TEOSYAL Deep Lines**, upper cheeks and lower eyelids with **TEOSYAL Ultra Deep**
